## Smarters Setup Guide

- 1) Make sure you are on the top bar of the home screen and press right on the remote to scroll across to Settings then choose Device then Developer Options and then select Apps from Unknown Sources and turn it to ON.
- 2) Press the home button on the remote to go back to the Amazon home screen then press left on the remote to the little magnifier icon next to the word Home and press ok.
- 3) Now you want to use the search keyboard to type the word Downloader ( Yellow Coloured Logo )
- 4) Download this app
- 5) Open the downloader app and enter this url in the box <http://wltv.me/apps/smarters.apk>
- 6) This will download Smarters IPTV Pro follow the on screen instructions to complete the installation
- 7) Once you have a screen with 4 boxes to complete you need to login to your account on <https://wltv.me>
- 8) You must have subscribed to continue generation of credentials can take a few hours
- 9) Navigate to the subscriptions section and you will see your active subscription
- 10) Choose the view button and you will see a section called Subscription Updates
- 11) Under that section will be the username, password and URL that you need to setup your App

Kind Regards
